

# I.4 COMMITMENT TO THE SUSTAINABLE DEVELOPMENT GOALS (SDGS)

## WHAT ARE THE SDGS?

In September 2015, the 193 Member States of the United Nations adopted the new 2030 Agenda for Sustainable Development, including the 17 Goals with 169 associated targets, tackling the economic, social and environmental dimensions, with the aim to end poverty, protect the planet and ensure peace and prosperity for all.

Arcor Group considered that it is a unique opportunity to align, prioritize and enhance the impact it generates. Accordingly, our management:

## PRIORITY SDGS<sup>3</sup>

Eleven priority SDGs were established for the 2020 Sustainability Strategy considering the specific and general commitments undertaken towards sustainable development as part of this Policy.

# COMMITMENT TO THE SUSTAINABLE DEVELOPMENT GOALS (SDGS)

## PROMOTE SUSTAINED, INCLUSIVE AND SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL.

The Company is explicitly committed to the respect and protection of Human and Labor Rights and has a due diligence process that includes: a risk and opportunity matrix, complaint mechanisms, and the incorporation of this commitment into its business planning, the evaluation of employee performance, and the monitoring and control system.

Of the 820 sustainability initiatives included in the POS 2017, 37% were linked to the commitment to Human and Labor Rights, promoting projects to ensure economic growth and decent work throughout the value chain.

## ENSURE SUSTAINABLE CONSUMPTION AND PRODUCTION PATTERNS

The commitment to responsible production and consumption is embodied in the Vision, Values, Code of Ethics and Conduct and Sustainability Policy that guide Arcor Group's actions worldwide.

Based on the various initiatives carried out in this strategic framework, the Group contributes to the targets set by this SDG to achieve sustainable management and efficient use of natural resources, reduce waste generation, adopt sustainable practices and help people to have information for sustainable development and lifestyles in harmony with nature.
